

Spoilt for choice

From tyre changers to wheel aligners or balancers, from waste oil drainers to hoists, Interequip has a range of solutions to fit any budget.

Interequip completes all corners of expectations when it comes to buying wheel service equipment, vehicle lifts, diagnostic equipment.

There is a higher end and a lower budget equipment catering to different customers' needs and budgets. For example, Interequip has a range of CCD bluetooth wheel aligners from VH5 (\$9000 + GST) to the Italian WA8SBT. They also have 3D aligners from VH8 (\$13900 +

GST) to Italian new dimension 3D aligners.

Removing a flat tyre, loosening beads and putting on a new tyre is way easier with the right equipment. Interequip has the latest technologies on board with their 24" tyre changer with arm from BP816 (\$4000 + GST) to the Italian TC5555SL.

Vehicle hoists are a basic necessity for any automotive workshop. Interequip get you covered with their range of updated stock, be it a vehicle hoist 2 post clear floor

4 ton from BP40M (\$2400 + GST) or a REAL 2 post 6 ton heavy duty clear floor lift.

Workshops that are planning to add a quality alignment lift to their equipment can check out Interequip's 4 post 4 ton wheel alignment lifts from Elite BP4X (\$8650 + GST) to the Korean made SL6000A heavy duty 4 post 6 ton model.

Diagnostic scanners are very useful tools in diagnosing car problems. Interequip offers a wide selection of solutions, from Autel DS808 scanner (\$1200 + GST) to Carman and Jaltest heavy duty scanners for trucks, bus, and commercial vehicles.

For AC service, the available equipment goes from ZELL AC2000 full automatic with printer to Italian Ecotechnics machines.

Another popular product is their 70L waste oil drainer – only \$254 + GST.

No matter it's a higher end or lower budget, they all come with recognised quality and satisfying service.
