

BulletPro BP800 Swing Arm Tyre Changer

with inflation device

Features

- Powerful bead breaker with specially shaped blade and rubber back pad for fast, safe bead breaking with precise control for tyres and rims.
- Special mount/demount head design allows fitting and removal of even the most difficult tyres with ease and with no damage to the wheel rim or tyre bead. Suitable for alloy wheels.
- Single speed turntable rotates in both directions without removing the rim.
- Powerful 4 head turntable clamping system covers 10" to 20" wheels with ease.
- Side swinging head for space saving operation.
