

Auro™ OtoSys IM100

Key Programming Tool

Choose Auro. Choose Confidence.

The OtoSys IM100 combines powerful immobilizer and key programming capabilities with advanced automotive diagnostics and comprehensive service function menu. This seven-inch, Android touchscreen tablet's powerful quad-core processor, intuitive design and straight-forward interface enables technicians of every level to quickly perform advanced diagnostics and services. The IM100 uses the UP200 Key Programmer to support transponder read/write/identification, MCU/EEPROM chip read/write and IMMO password read.
